

Date: Wednesday 12th October 2016
Time: 11am - 12pm
Venue: Room 2.300, Dept of Physics and Astronomy, Building E6B, Level 2,
Macquarie University

SPEAKER: CIBBY PULIKKASERIL

Founder and CTO, Baraja Pty Ltd

I wish I knew how it would feel to be a founder

Abstract

Like most people, I have always thought about starting my own company, but I just did not really know what it meant, what it would require, or how it would feel. I left a great job in 2015 to start Baraja with Federico Collarte, we had no money, no connections, but an idea and indomitable spirit!

Biography

Cibby Pulikkaseril is a Canadian engineer that has been active in photonics since 1999. He finished a PhD(EE) in 2009, then went to work at Finisar Australia, where he

was on the development team that produced the WaveShaper and WaveAnalyzer instruments. In 2015, he co-founded Baraja, a startup that is racing to commercialise an optical environmental sensor for autonomous vehicles.

Transportation

CUDOS offers transport between Macquarie University and the University of Sydney for those who are interested in attending the talk.
